

Power saving tips

Cut back on electricity use

Turn off your computer, printer, etc. when away from you office for an extended time.

Lights OFF
Switches OFF

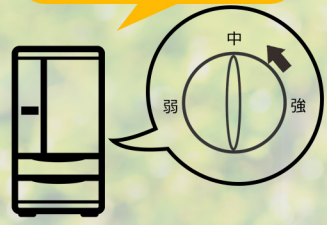

Turn everything off when going out.

Room temp. at 28°C

Keep the temperature at 28°C using a combination of the air conditioner and a fan.

Go from 'High' to 'Medium'

Change the refrigerator setting to medium and don't open the door for long.

Save water

Don't leave the water running long.

2018 Summer
