

Power saving tips

Cut back on electricity use

Turn off your computer, printer, etc. when away from you office for an extended time.

Lights OFF
Switches OFF

Turn everything off when going out.

Room temp.
at 19° C

Keep the temperature at 19°C using a combination of the air conditioner and a fan.

Promote blood circulation

Try using the stairs or some stretches to warm yourself.

Go from 'Medium' to 'Low'

Change the refrigerator setting to low and don't open the door for long.

Add 1 layer

Subtract 1° C

Please cooperate with

Power saving.
